WORKSHOP OUTLINE
Gippsland PHN, VHHITAL and Melbourne Sexual Health Centre invite local GPs and primary healthcare professionals to attend an evening update on Gonorrhoea, Syphilis, Chlamydia and Pre-exposure prophylaxis in general practice. Facilitated by Dr Nick Medland, Consultant Sexual Health Physician – Melbourne Sexual Health Centre.

FACILITATOR
Dr Nick Medland has more than 20 years clinical experience in HIV across the primary care, community and international sectors. He is completing his PhD and is a sexual health physician at Melbourne Sexual Health Centre and Royal Melbourne Hospital.

LEARNING OUTCOMES
- Identify at-risk patients to screen, take a sexual history and test for syphilis, gonorrhoea and chlamydia
- Describe the clinical presentation of gonorrhoea, syphilis and chlamydia
- Correctly perform testing for chlamydia, gonorrhoea and syphilis
- Manage patient treatment, contact tracing and referrals for syphilis, gonorrhoea and chlamydia
- Identify patients for pre-exposure prophylaxis and initiate treatment, monitor renal function and screen for STIs and HIV appropriately.

A two-course dinner will be provided.
